VKS SHARANYA WELFARE SOCIETY

Proud moment We has 86 team members across pan India spread in 10 states. Different states contributing in different areas of work and interest . Our team members Sunil Kumar chirlamcherla, from Hyderabad is invited for the World's first south pole last degree expedition surviving completely on renewable power (solar.wind&Bio fuels) for which NASA is one of the Technology partners.

It's a proud moment to represent India and to make India members of the 10 privileged countries in World to take part in World's first pole expedition surviving solely on clean energy (solar,wind and Bio fuels).

We are proud that India is a part of it and he got an opportunity to lead the country India will be torch bearer to the entire world in clean energy

This expedition is going to change the perspective of the world towards renewable power.This is aimed at sensitizing people towards clean energy

The motto of the expedition is to prove to the entire world "if renewable power works in the World's harshest place

VKS SHARANYA Conducted financial Literacy Programmes with support of YES BANK in 2017-2018 financial year and we are glad to share we have helped 52452 Beneficiaries
